## The Royal Old Rebel

The Confederate Veterans will read the following with keen interest and deep regret:

Chattanooga, Tenn., Oct. 9.—Col. Henry Watterson, veteran journalist, former editor of the Louisville Courier-Journal and during the Civil War publisher of the Chattanooga Rebel, has written a characteristic letter to the committee in charge of the reunion of the United Confederate Veterans here in which he expressed regret at not being able to attend.

The letter, written from New York City, and addressed to the chairman of the committee, follows:

"I wish it were possible for me to attend the coming Confederate reunion. It is not possible, so you must take the will for the deed.

"Chattanooga possesses many claims upon my affections. It was there that I found my dear wife, who, after 59 years of devotion, still abides and between whom and myself the relations then established remain unbroken and unchanged. She joins me in the regret that we cannot together re-visit the scenes of our early love-making. But at four score and upward functions of every sort are beyond me.

"Perhaps it is as well that I may not again look upon the thin grey line soon to disappear forever from the scene of this world for it might put too great a strain upon an old man's tenderest sensibilities.

"My love to the old boys. It cannot be long when we shall meet on that beautiful shore, and when we meet, be sure the bonnie blue flag will be flying at the fore, and the bands will be playing Dixie on parade whilst the pretty girls will be distributing the Chattanooga Rebel to groups of ragged red-nosed angels who have not forgotten the Rebel yell.

Sincerely,  
HENRY WATTERSON."

## Be Loyal

Don't go abroad to buy something when you have a few dollars to spend and then ask your home merchants to sell to you on time when you are broke. If you have bills with your merchant who has given you credit and an extension of time and accepted small payments, and take your cash to the city to spend with a stranger who has no interest in your town, nine times out of ten he will "do" you because he never expects to see you again. The home merchant will save your money with reliable goods, which he guarantees with his reputation.

A town that is large enough and good enough for a man to earn his living in is good enough for him to buy his provisions in. If he does not think so, both he and the town would be better off if his tent were pitched on other prairies.

## Mail Order Houses

"We have a bureau whose duty it is to read each week the country newspapers from all over the country. There is not a paper of any consequence in our trade territory that our bureau does not get. This bureau looks over these papers and when we find a town where the merchants are not advertising in the local paper we immediately flood that territory with our literature. It always brings results far in excess of the same effort put forth in territory where the local merchants use their local papers," said Herman Rosenfield, advertising manager for Sears, Roebuck & Co.

## MARIAN RILEY FOR GOVERNOR

Will Be Anti-Vardaman Candidate Is Report

Information from a reliable source is to the effect that Marian Riley, of Meridian, will be the candidate of the anti-Vardaman, Bilbo-Russell faction for governor in the next gubernatorial race.

Mr. Riley was the opposition candidate when Governor Bilbo was elected and the result was very close, Bilbo winning by less than 1,000 votes.

## The Mississippi Bankers' Association

November 15, Greenwood, north-west Mississippi; C. B. Parrish, Charleston, Vice-President.

November 17, Memphis (Chisca) northeast Mississippi; Lee Cox, Ripley, Vice-President.

November 22, Jackson, south-west Mississippi; W. A. Montgomery, Edwards, Vice-President.

Further announcements and programs will follow.

## "Woodrow Wilson As I Knew Him."

The people of the United States hail with delight the fact that Joseph Tumulty, Ex-President Wilson's private secretary while he was president, is going to give to the American public a book entitled, "Woodrow Wilson As I Knew Him." Mr. Tumulty perhaps knows Mr. Wilson more intimately than any other American citizen. Many of Mr. Wilson's critics have been writing about him since he retired to the privacy of his home, hence it seems that Mr. Tumulty's book will appear at an opportune moment and will lay before the world much history that has heretofore been known only by the few who were officially trusted with these confidences. The first installment of Mr. Tumulty's book will appear in the Memphis News Scimitar Oct. 31st.

They proved very beneficial and satisfactory in every respect." Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Brown had. Foster-Milburn Co. ## All the Cream At All Speeds

Every member of the family turns the separator handle at a different rate. And, no one turns always at the exact speed stamped upon the crank,—it simply can't be done.

Your present separator, unless a suction-feed, has a constant inflow of milk. Whenever the speed falls, a lot of cream slips away through the milk-spout and is lost forever. Experts estimate that most farmers lose from 7 to 13 lbs. of butter yearly from each cow because they turn their separators below speed. You are, no doubt, one of the losers and very likely a heavy loser. But you can stop this loss right now by using

## THE NEW SHARPLES SUCTION-FEED

Separator. This wonderful machine automatically regulates the inflow of milk in exact proportion to the skimming force. It gets all the cream at all speeds. Father can "speed up" the crank to 55 revolutions a minute and finish the chore quickly. Mother or the girls can turn at a leisurely rate. Fast or slow, the Suction-feed Separator skims absolutely clean and delivers cream of uniform density—no thick today and thin tomorrow. It's the only separator having these valuable features. The slender Tubular bowl gives double skimming force. It's the only bowl containing no discs or blades. There's just one piece in it—a single small cone, as simple and easy to clean as a napkin ring. The New Sharples is ruggedly built for hard service. It is neat, compact, runs easily and oils itself. There are many other exclusive and important features to be found in the New Sharples Suction-feed Separator. Come in and let us show you. Bring the women folks, too. We'll be glad to see you all.

Scientific, Economical, Durable, put a sharples suction feed separator on your farm.
